

# Panagraph earns major recognition

Sheffield Homes and its partners; Kier Sheffield, Lovell Partnerships, Keepmoat, Wates Living Space and Henry Boot Construction, were named winners of the Innovation Award at the inaugural CIOB construction in Sheffield 2008 awards dinner on October 2nd 2008. The award was presented in recognition of Sheffield Homes' Panagraph model.

## Performance Management

Panagraph Performance Management is exclusively focussed towards the delivery of award winning performance management processes and tailored software solutions for the UK construction and building maintenance sector.

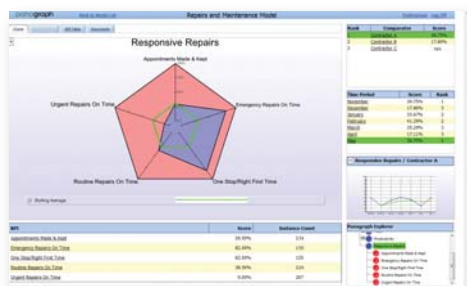

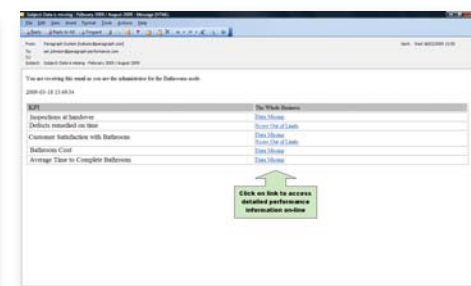

Initially developed in partnership with Sheffield City Council, Panagraph software is now being used by over 20 organisations in the UK.

Our latest release (Version 3) includes new intuitive features specifically developed from input from our users.

# v3

# Performance Intelligence!

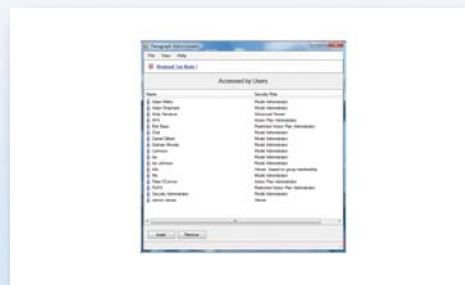

### Chart View

View your performance information in several recognised graphical formats. Take a “high-level” view of performance across all indicators or drill into the detail of individual KPIs. Analyse trends. Superimpose targets, averages and rolling averages onto any chart. View best practice ranking tables and performance levels over previous time periods with the click of a mouse.

### Table View

View your KPI data in Panagraph’s interactive table view. With the aid of check boxes you can highlight best performance, lowest performance and performance levels below target.

### Security

Manage the security of your performance information with Panagraph’s security manager. You give access rights within your organisation and manage password access to each part of Panagraph.

### Action Plans

“Delivering action plans brings about performance improvement!” Panagraph’s on-line action planning allows you to instantly create and circulate action plans enabling faster implementation of the required action. Status changes are logged giving you a complete audit trail of your action plans.

### Alerts

Automatically send emails to your KPI owners when performance levels drop below target or performance data is missing. Flexible setting of email wording and previews prior to sending gives you a fully manageable process.

### Document Store

Store all of your performance documentation within Panagraph’s on-line document store. These could include:

- KPI definition documents
- Meeting minutes
- Monthly quality checks
- Customer satisfaction surveys etc.

### Automatic Data Conversion

Panagraph’s unique data convertor automatically converts your raw data into performance scores, averages and rolling averages.
